TSSG/RED-1812/69
18 September 1969

MEMORANDUM FOR: Chief, Research and Engineering Division

SUBJECT: Unsolicited Proposal from [redacted]

25X1

1. On 16 September 1969 (1000 hours) [redacted]
25X1 contract administrator for [redacted] and
25X1 [redacted] Washington representative, met with
[redacted] and presented a written proposal for a free radical
positive-to-positive copying system.

25X1
25X1

2. Two copies of the proposal and the pricing data are enclosed
25X1 herewith. [redacted] retained copies for TSSG.

3. At the request of the Deputy Chief, RED, I joined the
meeting as an RED representative. An EDL representative was unable
to attend.

25X1
25X1
25X1 4. As an aside, [redacted] mentioned some laser beam recording
25X1 experiments (performed by [redacted]) employing a special
25X1 [redacted] film, which yield resolution far exceeding any con-
ventional photographic films. Further details can be obtained from
25X1 [redacted] WPAFB, attention AVR8.

25X1 5. [redacted] asked that the proposals be turned over to
RED for action.

25X1
